CAREER OBJECTIVE

Results-driven .NET Developer with 4 years of experience in designing, developing, and optimizing web applications. Proficient in ASP.NET, C#, and SQL Server, with expertise in full-stack development, database optimization, and building scalable, high-performance solutions. Dedicated to writing clean, efficient code and consistently enhancing application performance. Seeking to leverage technical expertise and collaborate with a forward-thinking team to deliver innovative software solutions that align with business goals and improve user experiences.

WORK EXPERIENCE

- **Wipro PARI Engineering & Services, Pune** Nov 2020 – Dec 2024
Member, Nov 2020 – Dec 2024
 - Lead of high-performance web applications using ASP.NET and C#, enhancing operational efficiency by 20% for Ford Romania.
 - Optimize SQL Server integrations, streamlining data retrieval processes, improving system performance, and reducing query load by 25%.
 - Reduce defects by 15% through rigorous unit testing and debugging, improving software stability and minimizing downtime.
 - Collaborate with cross-functional teams (QA, architecture) in an Agile environment, mentoring junior developers, conducting code reviews, and ensuring adherence to best practices, which led to the timely delivery of critical features and improved team productivity.
 - Produce comprehensive documentation for APIs and software architecture, ensuring seamless knowledge transfer and long-term maintainability.
 - Skills Gained: ASP.NET, C#, SQL Server, debugging, unit testing, cross-functional collaboration, software architecture, API development, Agile practices, documentation.

- **Capgemini India** Jan 2025 – Present
Consultant, Jan 2025 – Present
 - Backend Development: Developing and maintaining RESTful APIs and microservices using ASP.NET Core, C#, and Entity Framework for scalable and high-performance applications.
 - Frontend Development: Building responsive and interactive user interfaces using JavaScript, jQuery to enhance user experience.
 - Database Management: Writing optimized SQL queries, stored procedures, and indexing strategies in SQL Server to improve application performance and efficiency.
 - Agile & Collaboration: Actively participating in sprint planning, daily stand-ups, code reviews, and cross-functional team discussions to ensure smooth project execution.
 - Security & Authentication: Implementing authentication and authorization mechanisms such as JWT, OAuth for secure application access.

TECHNICAL SKILLS

- Programming Languages: C#, JavaScript
- Web Technologies: HTML5, CSS3, Bootstrap5
- Databases: MS SQL Server
- Tools: Azure DevOps, Devextreme, Visual Studio
- Frameworks: ASP.NET, MVC, .NET Core, jQuery, React (Intermediate)
- Version Control: GIT
- Methodologies: Agile Methodology

EDUCATION

➤ Sanjay Bhokare Group of Institute, Miraj	Jun 2016 – May 2019
Bachelor of Engineering in E&TC 68.75%	
➤ Government Polytechnic, Miraj	Jun 2013 – May 2016
Diploma in Medical Electronics 81.75%	
➤ New English School, Miraj	Mar 2012 – Jun 2013
S.S.C 80%
